

# DMC.20000

Professional digital media controller and a compact all-in-one solution. This will even satisfy the most demanding DJ's!! Connect a pair of Powered Speakers to get the party rolling!

Music from different sources can be played seamlessly:

- Two internal USB-players share the same USB-hard disks/USB-sticks to play any WAV or MP3 file
- Different analog inputs like turntables, extra CD-players, etc
- Controls all popular MIDI DJ-Software you can imagine, free Deckadance-LE software included!
- Two microphones with talkover can be used simultaneously

Q-DBase system: smart, fully featured database lookup system

The digital effects (echo, flange, filter, brake) can be used manually or fully beat sync with presets

SMART RANDOM: random play can be limited to one genre or artist (ex. Play only slows!)

Many, many more.....please check our website for more detailed information
